by Norman E. Jones

This Book's value to you

For years, Bible scholars have been saying the United States of America is NOT to be found in scripture. But they have overlooked some important clues found in the Old Testament book of Daniel. Overlooked clues are:

- * Some nation-empires are succeeding each other and some exist concurrently. This is an crucial distinction.
- * Ancient empire national symbols differ from modern empire national symbols. I show how and why.
- * National symbols found in Bible prophecy, relate to modern empire national symbols.
- * God has used a "type" with a double fulfillment to impart some of His truth.
- * Daniel, Chapter Seven nation-empires relate to Revelation, Chapter thirteen nation-empires. I will show how and why.
- * One modern nation-empire is already accepted by competent scholarship as involved in end-time prophetic events. I show who and why.
